The RDA, CITY, and DEVELOPER may collectively be referred to as the "PARTIES."

WITNESSETH:

WHEREAS, the DEVELOPER desires to acquire property owned by the CITY located at 1350 Einstein Way and 1351 Ontario Road (Tax Parcels 21-181-2 and 21-181-3) in the I-43 Business Park, legally described on the attached Exhibit "A" hereto, totaling approximately 10.3 acres (hereinafter the "Property"); and

WHEREAS, the DEVELOPER desires to construct a taxable one-story inpatient psychiatric hospital totaling approximately 52,250 square feet and housing approximately 72 beds ("the Project") to serve the needs of the Green Bay community; and

WHEREAS, but for funding sources from the RDA and CITY, the development at the Property would not be feasible;

NOW, THEREFORE, in consideration of the promises and obligations herein set forth, it is mutually agreed between the PARTIES as follows:

I. PROPOSED PROJECT SCOPE AND CONSTRUCTION. The DEVELOPER shall acquire the Property. The DEVELOPER shall construct the Project on the Property. The Project shall have approximately 72 beds totaling approximately 52,250 square feet. The total development costs of the Project and acquisition of the Property shall not be an amount less than \$10,000,000.00. DEVELOPER shall also comply with the following requirements for this Project:

The DEVELOPER, CITY and RDA shall comply with the following requirements for the Project:

- A. The DEVELOPER shall commence construction (the "Commencement Date") of the Project no later than October 1, 2015, with DEVELOPER taking such action as necessary and required to receive all municipal approvals for the Project from the CITY and/or any other governmental entities, and satisfaction of all conditions required herein.
- B. The DEVELOPER shall complete the Project (which shall be deemed achieved by the delivery of a certificate of occupancy or occupancy permit for any portion of the building constructed on the Property) by June 1, 2017, (the "Completion Date") in accordance with site and building plans as approved by the CITY, which approvals shall not be unreasonably withheld, conditioned or delayed.
- C. The CITY will cooperate with respect to any and all permits necessary for completion of the Project. All PARTIES agree to use reasonable efforts to obtain performance of the conditions of this Agreement.
- D. The DEVELOPER shall comply with all applicable Federal, State, and Municipal codes throughout the Project, including submitting site plans and obtaining applicable permits.

- E. The Preliminary Concept Plan for the Project (hereinafter "Concept Plan") is attached hereto as Exhibit "B" and is incorporated herein by reference. By execution of this Agreement, the PARTIES hereto expressly approve the Concept Plan. The RDA or DEVELOPER may at any time propose modifications to the Concept Plan subject to the agreement of the RDA and the DEVELOPER. All site and building plans are subject to review and approval by the CITY for compliance with Federal, State and Municipal code requirements.
- F. The time for performance of any term, covenant, or condition of this Agreement shall be extended by any period of unavoidable delays. In this Agreement, "unavoidable delays" means delays beyond the reasonable control of the party obligated to perform the applicable term, covenant, or condition under this Agreement and shall include, without limiting the generality of the foregoing, delays attributable to adverse environmental conditions (such as contaminated soil or groundwater), adverse weather conditions, acts of God, the actions of any other party in this Agreement, strikes, labor disputes, governmental restrictions, court injunctions, riot, civil commotion, acts of public enemy and casualty or delay in obtaining any necessary permit from any governmental agency.

- A. The CITY shall convey to the DEVELOPER the Property for Four Hundred Ninety-Four Thousand and Four Hundred Dollars and No Cents (\$494,400.00), in accordance with the terms and conditions of the Purchase Agreement entered into by the PARTIES and attached hereto as Exhibit "C", after DEVELOPER provides to the RDA adequate proof that all Project financing and construction agreements are executed. The conveyance of the Property shall be by warranty deed.
- B. The CITY and the DEVELOPER shall have the right to undertake due diligence and completion of the following to the CITY and DEVELOPER's reasonable satisfaction:
 - 1. Environmental assessment and clean up. The CITY or its agents and assigns have not deposited any contaminants on the Project Site.
 - 2. Title insurance and, if applicable, ALTA survey review to be paid by the CITY.
- C. In the event the DEVELOPER fails to commence construction by the Commencement Date, or in the event that the DEVELOPER fails to complete the Project by the Completion Date, subject to any unavoidable delays, the DEVELOPER shall convey the Property back to the CITY upon written request of the CITY and repayment by the CITY of the full Purchase Price back to the DEVELOPER, at which time this Agreement shall become null and void, except for any guarantees for outstanding debt of the Project. Notwithstanding any of the provisions of this Agreement, including, but not limited to, those intended to be covenants running with the Property, the holder of any mortgage in the Property (including any holder who obtains title to the Property or any part thereof as a result of foreclosure proceedings, or action in lieu thereof, but not including (i) any other party who thereafter obtains title to the Property or such part from or through such holder or (ii) any other purchaser at foreclosure sale other than the holder of the mortgage itself) shall not be obligated by the provisions of this Agreement to complete the construction of the Project or guarantee such construction; nor shall any covenant or any

other provision in any document of record, including, without limitation, a deed, be construed to so obligate such holder, unless the mortgage holder exercises the option to cure the DEVELOPER's default.

In addition, any conveyance of the Property back to the CITY as a result of such DEVELOPER default shall not defeat, render invalid or limit in any way (i) the lien of any mortgage in the Property and (ii) any right or interest provided in this Agreement for the protection of the holder of such mortgage. In the event of such DEVELOPER default, and the CITY taking action to require conveyance of the Property back to the CITY as described above, the CITY shall first provide the mortgagee (as identified by the DEVELOPER) with written notice of such DEVELOPER default and provide such mortgagee with a reasonable opportunity to cure such default and diligently prosecute the completion of the Project itself, or through an assignee, and in such event, the obligation to convey the Property back to the CITY shall be deemed null and void so long as such party is diligently prosecuting the Project to completion. The mortgagee shall exercise its option to cure such DEVELOPER default and assume this Agreement, if at all, within twenty (20) days after receipt of such default notice and thereafter the CITY and the RDA shall attorn to such mortgagee or its assignee and this Agreement shall thereafter be binding on all such PARTIES. If said event occurs, any and all fees or costs paid by the DEVELOPER (other than the Purchase Price) shall be forfeited and retained by the CITY. The DEVELOPER further agrees to take all necessary action to revert title of the Property back to the CITY at no cost to the CITY through a quit-claim deed. In the event that the CITY must take legal action to re-obtain title to the Property under the terms of this Agreement, the DEVELOPER agrees to indemnify the CITY for all costs associated with such action, including reasonable attorneys' fees and costs.

- D. The RDA shall coordinate the public agency participation in planning, obtaining data from public records as may be available, reviewing and commenting on aspects of the proposed development in a timely manner.

III. EASEMENTS, COVENANTS AND LICENSES.

- A. The CITY and the DEVELOPER will enter into all necessary easements for the Property as may be determined to be necessary by the PARTIES. The easements shall run with the land and benefit all subsequent owners of both sides of the Property.
- B. Additional easements, covenants, conditions and restrictions may be deemed necessary or desirable by the PARTIES to achieve the purposes of this Agreement. In such event, said easements, covenants, conditions and restrictions shall be in writing and mutually agreed to by the PARTIES.

IV. FINANCING

- A. Conditioned on completion of the Project and the DEVELOPER spending approximately Ten Million dollars (\$10,000,000.00), the RDA shall contribute no more than One Million dollars (\$1,000,000.00) of Tax Incremental Financing (TIF) assistance to the DEVELOPER. The TIF assistance shall be structured as a yearend pay-go disbursement and paid out over a term of five (5) years from January 1st in the year following the completion of the Project. This reimbursement shall be known as the Annual TIF

Payment.

- B. The Annual TIF Payment shall be calculated by subtracting the real property taxes paid on the base tax value, from the actual realized real property taxes on an annual basis for the Property. The real property taxes paid on the base tax value shall be Six Thousand Nine Hundred dollars (\$6,900.00). Real property taxes do not include any lawful special assessments, special charges, personal property or other charges that may appear on the annual tax bill.
- C. The Annual TIF Payment shall not exceed Two Hundred Thousand dollars (\$200,000.00) annually. The Annual TIF payment shall be paid to DEVELOPER within thirty (30) days following DEVELOPER's notice to RDA/CITY that the annual real estate tax bill has been paid in full for the Project Site.
- D. If the DEVELOPER transfers the Property/Project to an unaffiliated party or a tax-exempt party prior to conclusion of the five (5) year pay-go TIF assistance term, the RDA and CITY shall have no obligation to provide the Annual TIF Payment outlined in subsection A through C to the successor party.
- E. If the DEVELOPER transfers the Property/Project to a non-profit entity or other tax exempt entity, the DEVELOPER shall remit a transfer penalty to the CITY. The transfer penalty shall be calculated as a percentage of the value of the total Annual TIF Payments made to the DEVELOPER as of the date of transfer. The transfer year shall be calculated from the execution date of this Agreement with year 0 being the year of execution of this Agreement. The transfer penalty is outlined below:

<u>Transfer Year</u>	<u>Transfer Penalty as Percentage of TIF Distributions</u>
0-10	50%
11-15	25%
16-20	15%
After Year 20	No penalty

Upon written demand by CITY, the transfer penalty shall be paid to CITY within thirty (30) days. Payment shall be made in such form as indicated in the written notice from CITY.

Notwithstanding the foregoing, the transfer penalty shall not be payable to the extent the transferee of the Property/Project agrees not to exempt the Property/Project from real estate taxes or enters into a payment in lieu of taxes agreement with the CITY that provides for payments in approximately the same amount as real estate taxes.

V. DEVELOPER'S TRANSFER RESTRICTIONS AND OBLIGATIONS.

- A. Prior to the Completion Date, the DEVELOPER may assign all rights and obligations under this Agreement only to a controlled and affiliated company to (i) own, manage and operate the Property, (ii) any financial institution providing financing in connection with the Property, or (iii) any entity acquiring all or substantially all of the assets of the DEVELOPER and its parent and affiliated entities. Except for the foregoing, no assignment of the DEVELOPER's rights and obligations under this Agreement to an unaffiliated party may occur without the CITY's and RDA's written consent from the

date this Agreement is executed to the Completion Date. In the event assignment occurs without RDA and CITY approval, the RDA/CITY may request or institute legal action based upon a breach of this Agreement. The RDA's or CITY's consent shall not be unreasonably withheld, conditioned or delayed. In determining the reasonableness of any consent or failure to consent, the RDA and CITY shall consider whether the proposed transferee has sufficient development experience and creditworthiness to perform the DEVELOPER's obligations under this Agreement.

After the Completion Date, but subject to the DEVELOPER's obligation to pay the transfer penalty set forth above, if applicable, the DEVELOPER shall have the absolute right to transfer the entirety of its right, title, and interest in and to the Project together with all rights and obligations of this Agreement without RDA's or CITY's consent.

- B. All requests requiring the CITY/RDA approval shall be submitted at least 30 days in advance of the date of the proposed action.
- C. The above restrictions do not preclude the creation of a mortgage, encumbrance or lien upon the Property for the purpose of financing or refinancing the development or any part thereof pursuant to this Agreement. - D. Prior to Property transfer to the DEVELOPER, the DEVELOPER shall furnish to the RDA evidence of the construction contract for the Project.
- E. The RDA shall indicate its approval or further requirements in writing within thirty (30) days from the date of receipt of the proposed revisions in the Concept Plans; provided, however, that the RDA shall approve such revised Concept Plans unless it reasonably finds that such revisions would impair the objectives of this Agreement, impose substantial financial burdens on the RDA or the CITY, or adversely affect the Concept Plans. The RDA may approve, disapprove or impose further requirements with respect to the Development Budget and Design Development Documents, provided, however, that if the Development Budget and Design Development Documents conform with the Concept Plans, such approval may not unreasonably be withheld. The RDA will make all reasonable efforts to approve of the budget and plans in less than thirty (30) days, including convening for special meetings to review and consider such budget and plans.

- G. The DEVELOPER shall file with the RDA copies of the detailed construction plans promptly (within thirty (30) days) after completion of construction.
- H. During the period prior to the date of commencement of construction of the Project, the DEVELOPER shall from time to time advise the RDA regarding information having a bearing upon the RDA's interest under this Agreement, and, after date of commencement of construction of the Project by the DEVELOPER, the DEVELOPER shall file with the RDA quarterly summary progress reports during the course of construction of the Project.
- I. All documents shall be submitted in triplicate.

- K. Prior to commencing construction of the Project, the DEVELOPER shall obtain and keep in full force and effect during construction of the improvements, an all-risk builder's risk insurance policy for the Project on which construction is occurring with coverage equal to the total amount of the DEVELOPER's construction contract or contracts for all improvements being constructed. Such builder's risk insurance policy shall name the RDA/CITY as an additional insured, subordinate in its rights to such proceeds to the DEVELOPER's mortgagee. However, in such a case, the DEVELOPER is not relieved of its obligation to perform under this Agreement. The DEVELOPER shall also obtain and keep in full force and effect during construction of its improvements, for the benefit of the RDA and CITY, an owner's comprehensive protective liability insurance policy with personal injury coverage of at least \$2,000,000.00, and property damage coverage of at least \$1,000,000.00. Such policies of insurance shall be written by insurance companies authorized to do business in the state of Wisconsin. Prior to commencement of construction, the DEVELOPER shall file with the CITY a certificate of insurance setting forth that all coverage herein is in full force and effect and providing the RDA and CITY will be given ten (10) days written notice prior to termination or cancellation of such coverage.

If site remediation is required, the the CITY/RDA will work cooperatively with the DEVELOPER to off-set any extraordinary site clean-up costs; however, the CITY/RDA shall not be legally obligated to remediate the site. CITY/RDA shall assume the costs of clean-up only upon obtaining external grant funds covering the entire cost of clean-up.
- B. A. INTENT. The intent of the PUD is to develop the subject area with elements of a traditional neighborhood, these themes include:

1. Is compact and is designed for the human scale.
2. Provides a mix of uses, including residential, commercial, civic, and open space uses in close proximity to one another within the neighborhood.
3. Provides a mix of housing styles, types, and sizes to accommodate the households of all ages, sizes, and incomes.
4. Incorporates a system of relatively narrow, interconnected streets with sidewalks, as well as access to bicycle and transit routes; offering multiple routes for motorists, pedestrians, and bicyclists and provides for the connections of those streets to existing and future developments.
5. Incorporates significant environmental features into the design.
6. Is consistent with the City of Green Bay Comprehensive Plan.

B. APPLICABILITY. This ordinance applies as an alternative set of standards for development or redevelopment on sites of 5 acres or more if it is within the Urban Service or Urban Expansion Districts and is contiguous to existing development and 15 acres or more if it is within the Urban Service or Urban Expansion Districts and is noncontiguous to existing development.

C. INTERPRETATION. Development shall be planned, reviewed, and carried out in conformance with all municipal, state, and other laws and regulations. However, if there is a conflict between the provisions of this subchapter and other provisions of the zoning or subdivision sections of the Green Bay Municipal Code, this subchapter shall take precedence.

SECTION 3. Pursuant to Sections 13-1900, et seq., Green Bay Municipal Code, as they apply, the following conditions are imposed:

A. PERMITTED, CONDITIONAL, AND ACCESSORY USES. The only uses that may be established and/or maintained on the subject property, in conformance with Exhibit D – Grandview Place Land Use Plan, are as follows:

1. Permitted Uses: In order to achieve the proximity necessary to make neighborhoods walkable, it is important to mix land uses. A traditional

neighborhood development shall consist of the following components: a residential area, a mixed-use area, and open space, as specified below.

A variety of lot sizes should be provided to facilitate housing diversity and choice and meet the projected requirements of people with different housing needs.
2. Lot widths. Lot widths should create a relatively symmetrical street cross-section that reinforces the public space of the street as a simple, unified public space. Similar lot sizes and housing types should generally be located on opposite sides of a street.
3. Dimensional Standards.

	Min. lot size	Min. lot width	Front yard setback	Rear yard setback ^a	Side yard setback ^{b, e}	Height ^d	Max Impervious Surface
			Min - Max	Minimum	Minimum	Min - Max	
Single-family detached	5,000 SF	50	10 – 35	25	6 (two) or 10 (one – ZLL)	1 – 2.5 stories / 35'	60%
Two-family/attached residences	2,000 SF/unit	25 per unit	10 – 25	25	10 (end units)	1 – 2.5 stories / 35'	60%
Multi-family residences	1,500/unit, min 4,000 SF	80	5 – 25	15	10	2-4 stories / 45'	70%

Civic (institutional, rec.) buildings	5,000	50	0 – 25	n/a	10	2-4 stories / 45'	80%

Notes:

- a. Where an alley is present, half of the alley's right-of-way width shall be counted toward the rear setback.
 - b. A minimum side yard setback of 6 feet shall be provided for single-family detached dwellings or a single side yard of 10 feet for semi-detached single-family dwellings. A minimum side yard setback of 10 feet shall be provided for end-unit attached dwellings. For semi-detached single-family dwellings, a reciprocal access easement shall be recorded for both lots. All semi-detached single-family dwellings, townhouses, and other attached dwellings shall have pedestrian access to the rear yard through means other than the principal structure.
 - c. No side yards are required along interior lot lines, except as otherwise specified in the building code, except that if walls of structures facing such interior lot lines contain windows or other openings, yards of not less than 6 feet shall be provided. Side and rear yards of at least 6 feet shall be required when a nonresidential use adjoins a side yard of a residential property.
 - d. See Chapter 13-1429(1), Green Bay Municipal Code, for exceptions to maximum height.
 - e. Corner properties. The side façade of a corner building adjoining a public street shall maintain the front setback of the adjacent property fronting upon the same public street. If no structure exists on the adjacent property, no less than half of the front setback applies.
 - f. Multi-family and commercial buildings or a portion of such buildings shall be oriented to the public right-of-way with parking located in the rear or side yard to ensure the uses are integrated into the block structure.
 - g. Single-family detached lots greater than 7,500 square feet shall have a maximum impervious surface coverage of 50 percent.
 - h. All units in multi-family development shall have an attached garage and may have additional detached garages as necessary.
4. Standards for garages and other access structures. Garages may be placed on a single-family detached residential lot either within the principal building or an accessory building, meeting the following requirements:
- a. Attached accessory structures shall be considered attached and integral part of the principal structure when it is connected by an enclosed passageway. Such structures are subject to Section 13-615(b), Green Bay Municipal Code.
 - b. Detached accessory structures shall be permitted in residential districts in accordance with Section 13-615(c), Green Bay Municipal Code.
 - c. All garages shall be set back 20 feet from the public right-of-way.

C. ARCHITECTURE STANDARDS. A variety of architectural and design features and building materials is encouraged to give each building or group of buildings a distinct character, as well as sensitivity to the surrounding context.

1. Commercial use building height. To create a visually unified streetwall, buildings should be no more than 30 percent taller or shorter than the average building height on the block.
2. Entries and facades:
 - a. The architectural features, materials, and the articulation of a façade of a building shall be continued on all sides visible from a public street.
 - b. The front or principal façade of the principal building on any lot shall face a public street and shall not be oriented to face directly toward a parking lot.
 - c. Buildings of more than 30 feet in width shall be divided into smaller regular increments through articulation of the façade. This can be achieved through variations in materials, detailing, roof lines, and elements, such as arcades, awnings, windows, and balconies.
 - d. The ground level of any multi-story, commercial, and mixed-use structure shall be visually distinct from the upper stories through the use of an intermediate cornice line, sign band, awning or arcade, or a change in building materials, texture, or detailing.
 - e. Porches, pent roofs, roof overhangs, hooded front doors, or similar architectural elements shall be used to define the front entrance to all residences or multi-family buildings.
 - f. No single-family detached structure shall have the same front façade as an adjoining parcel.
3. Residential uses at street level should generally be set back far enough from the street to provide a private yard area between the sidewalk and the front door. Landscaping, steps, porches, grade changes, and low ornamental fences or walls may be used to provide increased privacy and livability for first floor units. A list of permitted residential architectural styles is listed under Exhibit A.
4. For commercial or mixed-use buildings, a minimum of 30 percent of the front façade on the ground floor shall be transparent, consisting of window or door openings allowing views into and out of the interior.
5. Additions to existing structures shall maintain setbacks, building proportions, roof and cornice lines, façade divisions, rhythm and proportion of openings, building materials, and colors that are similar to and compatible with the existing structure.
6. Materials. A 30 percent mix of materials is required for the front façade of residential structures. Acceptable building façade material includes:
 - a. Concrete (including precast concrete with prior approval of sample),

- b. Glass,
 - c. Masonry (brick as well as decorative block with prior approval of block sample),
 - d. Metals,
 - e. Stone,
 - f. Tile,
 - g. Vinyl,
 - h. Wood with prior approval of sample,
 - i. Other materials, such as cementitious sidings, stucco, and polyurethane or PVC detailing, masonry veneer shall only begin at the first floor exterior window sill plane and continue to the roofline.
7. Commercial street façade should have clear distinction between the “storefront” on the first floor and the floors above for the mixed-use commercial and light industrial uses of this district.

8. Any signage, lighting and awnings must be integrated into the design.
9. Second street façade (these will occur on corner lots and lots adjacent to dedicated park space) should be developed to a similar level of detail as the “address” elevation, though the overall emphasis of the “address” elevation should be greater than the second street facades.
10. Functional entries are allowed and encouraged on second street facades.
11. Side façade at adjoining property lines may be “blank” and must meet fire separation codes.
12. Rear façade should also use good design principles.
 - a. Entries should be properly emphasized to match use of entry (customer entry more emphasized than a “receiving” entry).
 - b. Some differentiation should occur between the first floor and the upper floors.
 - c. Rear façade should correlate to the front elevation.
13. A minimum 1,000 square foot dwelling unit for all single-family detached dwelling structures.
14. A minimum 900 square foot dwelling unit for single-family attached dwelling structures.

D. SITE DESIGN STANDARDS.

1. Lighting. Street lighting shall be provided on both sides of all streets at intervals of no greater than 75 feet. Generally, smaller lights, as opposed to fewer high-intensity lights, should be used. Street lighting design shall meet the minimum standards developed by the Department of Public Works. Exterior lighting shall be directed downward in order to reduce glare onto adjacent properties, per Chapter 5, General Regulations.
2. Exterior signage. Sign number, size, height, and location in the PUD shall meet the requirements of the Neighborhood Center District. A comprehensive sign program shall be developed for the entire PUD that establishes a uniform sign theme. Signs shall share a common palette of sizes, shapes, materials, and lettering styles.
3. Landscaping and screening standards:
 - a. Overall composition and location of landscaping shall complement the scale of the development and its surroundings. In general, larger, well-placed contiguous planting areas shall be preferred to smaller disconnected areas.
 - b. Height and opacity. Where screening is required by this ordinance, it shall be at least 3 feet in height unless otherwise specified. Required screening shall be at least 50 percent opaque throughout the year.
 - c. Components. Required screening shall be satisfied by one or a combination of the following:

- (1) A decorative fence not less than 50 percent opaque behind a continuous landscaped area.
- (2) A masonry wall.
- (3) A hedge.
- (4) Mixed use and commercial building foundation landscaping shall be in accordance with Section 13-1823, Green Bay Municipal Code.

4. Street trees. Street trees shall be required in accordance with Chapter 14, Green Bay Municipal Code. Trees should preferably be located within a planting strip between the sidewalk and the curb, within a landscaped median strip, or in tree wells installed in pavement or concrete.

E. PARKING. Parking areas for shared or community use should be encouraged. In addition:

1. In the mixed-use area, any parking lot shall be located at the rear or side of a building. If located at the side, screening shall be provided as specified in Chapter 13-1432, Green Bay Municipal Code.
2. A parking lot or parking garage shall not be located adjacent to or opposite a street intersection.
3. In the mixed-use area, a commercial use shall provide one parking space for every 300 square feet of gross floor area or portion thereof. Parking may be provided in shared or community lots within 1,000 feet of the site.
4. Shared parking and cross-access easements are highly encouraged to better facilitate movement throughout the development area.
5. In the mixed-used and residential areas, 1.5 off-street parking spaces shall be provided for each dwelling unit, with the exception of senior housing and secondary dwelling units, which shall provide one space per unit, and live-work units, which shall provide two spaces per unit.
6. On-street parking directly adjacent to a building may apply toward the minimum parking requirements for that building.
7. Surface parking lots or garages shall provide at least one bicycle parking space for every 10 motor vehicle parking spaces. Bicycle parking shall consist of a rack of acceptable design in a well-lit location, preferably sheltered.
8. Service access. Direct access to service and loading dock areas for service vehicles should be provided, while avoiding movement through parking areas to the greatest extent possible. Alleys may be used to provide service access.
9. Paving. Reduction of impervious surfaces through the use of interlocking pavers is strongly encouraged for remote parking lots or those used infrequently.
10. A preliminary development site and parking plan is included as Exhibits G and H.

- F. LANDSCAPING AND PARKING MAINTENANCE. All parking and loading areas fronting public street and sidewalks shall be landscaped in accordance with the requirements of Chapter 13-1800, Green Bay Municipal Code. All parking and loading areas abutting residential districts shall be landscaped in accordance with Chapter 13-1800, Green Bay Municipal Code. Parking area interior landscaping shall conform to the requirements of Chapter 13-1800, Green Bay Municipal Code. Parking area landscaping can include turf grass, native grasses, or other perennial flowering plants, vines, shrubs, or trees. Such spaces may also include architectural features, such as benches, kiosks, or bicycle parking.
- G. LIGHTING. Lighting throughout the PUD area shall meet the standards as set forth within the Green Bay Zoning Code, Chapter 13, Green Bay Municipal Code, Section 13-500 and further regulated as follows:
1. Parking lot lighting shall consist of sharp cut-off fixtures. Poles shall not exceed 25 feet in height.
 2. Pedestrian lighting for walkways shall not exceed 16 feet overall measured from ground level.
 3. Lighting plan indicating fixtures, placement, and height shall be included as part of the site plan submittal process and approved by the Community Development Review Team.
- H. STORMWATER MANAGEMENT AND GRADING PLAN. The design and development of the PUD should minimize off-site stormwater run off, promote onsite filtration, and minimize the discharge of pollutants to ground and surface water. Natural topography and existing land cover should be maintained/protected to the maximum extent practicable. New development and redevelopment shall meet the requirements of Chapter 30, Green Bay Municipal Code. A conceptual stormwater management plan and grading plan meeting the standards established by the City's Department of Public Works, Brown County, and the State of Wisconsin shall be submitted to and approved by the City prior to the issuance of building permits and shall be approved as listed above.

A complete stormwater management plan for proposed Phase I listed on Exhibit F shall be submitted in accordance with the requirements of Chapter 30, Green Bay Municipal Code. A complete stormwater management plan for the remaining development area listed on Exhibit F shall be submitted in accordance with the requirements of Chapter 30, Green Bay Municipal Code, prior to any further platting or land divisions.

Any proposed amendment to the land-use plan within the PUD described in Exhibit D as a result of the complete stormwater management plan shall be approved according to Section 3.D. of this ordinance.

- I. REFUSE AND MECHANICALS. Screening of refuse materials and mechanicals shall meet the standards as set forth within the Green Bay Zoning Code, Chapter 13, Green Bay Municipal Code, Section 13-1800.
- J. ACCESS AND CIRCULATION STANDARDS. Access and circulation for automobile and pedestrian traffic established through permanent access easements and in substantial conformity with what is depicted on the attached Exhibit E. The attached circulation standards allow for multiple modes of transportation. They provide functional and visual links within the residential, mixed-use, and open-space areas of the PUD and provide multiple connections to existing and proposed external development. The circulation standards provide for adequate traffic capacity and multiple connections to pedestrian bicycle routes, including off-street bicycle or multi-use paths. The standards also control through traffic, limit lot access to streets of lower traffic volumes, and promote safe and efficient mobility through the PUD.
 1. Pedestrian circulation. Convenient pedestrian circulation systems that minimize pedestrian-motor vehicle conflicts shall be provided continuously throughout the PUD. Where feasible, any existing pedestrian routes through the site shall be preserved and enhanced. All streets, except for alleys, shall be bordered by sidewalks on both sides in accordance with the specifications listed in Table 14-2. The following provisions also apply:
 - a. Sidewalks in mixed use areas. Clear and well-lighted walkways at least 5 feet in width shall connect all building entrances to the adjacent public sidewalk and associated parking areas.
 - b. Disabled accessibility. Sidewalks shall comply with the applicable requirements of the Americans with Disabilities Act.
 - c. Crosswalks. Intersections of sidewalks with streets shall be designed with clearly defined edges. Crosswalks shall be well-lit and clearly marked with contrasting paving material at the edges or with striping.
 2. Bicycle circulation. Bicycle circulation shall be accommodated on streets and/or dedicated bicycle paths. Any existing or planned bicycle routes through the site shall be preserved or developed. Bicycle facilities may include off-street paths (generally shared with pedestrians and other non-motorized uses) and/or separate striped 4-foot bicycle lanes on streets. If a bicycle lane is combined with a parking lane, the combined width should be 14 feet.
 3. Transit access. Where public transit service is available or planned, convenient access to transit stops shall be provided. Transit shelters, where provided, shall be well-lighted and placed in highly visible locations that provide security through surveillance.

4. Motor vehicle circulation. Motor vehicle circulation shall be designed to minimize conflicts with pedestrians and bicycles. Traffic calming features, such as “queuing streets”, curb extensions, traffic circles, and medians, may be used to encourage slow traffic speeds.
5. Street hierarchy. Each street within a PUD shall be classified according to the following hierarchy:
 - a. Arterial streets should not bisect a PUD but may border a PUD.
 - b. Collector. This street provides access to mixed-use areas and is also part of the City’s major street network.
 - c. Subcollector. This street provides primary access to residential properties and connects streets of higher and lower function, and it may provide access to community facilities, such as schools.
 - d. Local street. This street provides primary access to residential properties.
 - e. Alley. This street provides primary access to residential garages and commercial parking areas. It is typically used where street frontages are narrow, where the primary street width is narrow and limited on-street parking is provided, or to provide delivery access and access to commercial parking.
6. Street design. The following table is a guide to street design in the PUD. Street and right-of-way widths shall be reviewed by City staff as part of the concept plan review and shall be approved as part of the platting process in accordance with the phasing exhibit listed above.
7. Concrete sidewalks. Concrete sidewalks shall be installed on both sides of all public streets within this PUD. Sidewalks shall be installed at the time the lots are developed and prior to receiving an occupancy permit or as directed by the Common Council of the City of Green Bay. Once a block is built up with 50 percent of structures, the Common Council shall order in the sidewalks to complete the block network.

If the PUD involves the subdivision of land, as defined in the subdivision ordinance, the applicant shall submit all required land division documents in accordance with the requirements of Chapter 14, Green Bay Municipal Code, and Chapter 236, Wisconsin Statutes. If there is a conflict between the design standards of the subdivision ordinance and the design guidelines of this ordinance, the provisions of this ordinance shall apply.
- L. OWNERSHIP AND MAINTENANCE OF PUBLIC SPACE. Provisions shall be made for the ownership and maintenance of streets, squares, parks, open space, and other public spaces in a PUD by dedication to the City or management by an entity, such as homeowners association or neighborhood association approved by the Common Council.
- M. PROPOSED SCHEDULE OF DEVELOPMENT PHASING. The section allows for phased construction with the knowledge that subsequent phases will be developed consistently with earlier phases and under the review of the Plan Commission in accordance with the provisions of Chapter 13, Green Bay Municipal Code.
